

NOTICE
INFLOW/INFILTRATION INSPECTIONS REQUIREMENT

Effective May 1, 2014, Clear Creek Conservancy District will be requiring an Inflow/Infiltration inspection prior to sale of a home in the Heritage Lake subdivision. An I/I Certificate will be issued upon submission of the district's sanitary sewer inspection form. The form must be completed by a licensed plumber or the district's approved inspector. Once the inspection form certifying no sump pumps or illegal connections to the sewer exists and that customer's sewer lines are properly installed and maintained, a Certificate of Compliance will be issued. Inspection forms are available on the district's website at www.clearcreekdistrict.in.gov. Completed forms can be emailed to the district at clearcreek@tds.net or mailed to Clear Creek Conservancy District, PO Box 286, Greencastle, Indiana 46135.

If you have any questions please contact the district at 765-246-6585.

Failure to complete the inspection prior to the sale will result in a \$200 charge to the home buyer and buyer will be responsible for any defects found. Once issued, a Certificate of Compliance is valid for the home for 2 years.
